## 12-LC - LAUNCHING CARTRIDGE / BLANK - 12 GAUGE

### DESCRIPTION

Our 12-LC Launching Cartridge / Blank is specifically designed for use in launching smoke agent grenades. The cartridges have a disintegrating plastic wadding material and precisely measured powder load to provide a consistent launch trajectory. They can also be used as a blank for distraction and training applications.

Our 12 gauge rounds are loaded in high quality transparent shell casings to allow viewing of the shell contents. For best results they should be fired from standard improved cylinder bore 12 gauge barrels.
