12-RB9 - 12 GAUGE IMPACT MUNITIONS - RUBBER BALLS (9)

DESCRIPTION

Our 12-RB9 12 Gauge Rubber Ball Round is designed to be direct fired at target subjects up to 15 meters away for crowd control or civil unrest situations. This round fires 9 - 8 mm balls and is effective against individual or closely grouped target subjects. At very close ranges these rounds can be skip fired at subjects. These rounds are intended to be fired at the subject's lower extremities in most situations. These rounds are most effective in warmer climates when subject(s) are wearing lighter clothing.

Our 12 gauge rounds are loaded in high quality transparent shell casings to allow viewing of the shell contents. For best results they should be fired from standard improved cylinder bore 12 gauge barrels.

SPECIFICATIONS

Type	Projectile, Rubber Ball
Caliber:	12 Gauge
Projectiles	8 mm diameter rubber balls
Hardness	85 Durometers
Projectile Quantity	9
Projectile Weight	0.4 grams
Velocity	150 mps
Length Overall	54 mm
Shell Case	Clear Plastic / Brass
Overall Weight	14 grams
Maximum Range	30 meters
Effective Range	15 meters
Launched With	12 Gauge Shotgun

SHIPPING INFORMATION

UN Number	UN 0012
Shipping Name	Cartridges for Weapons, Inert Projectile
Hazard Class	1.4S
Inner Package	5 Cartridges Per Box
Outer Package	250 Cartridges (in 50 Boxes of 5)
Packaging	Fiberboard Box, 4G UN/DoT Approved
