MP-2B-OC - BAFFLED SMOKE GRENADE - OC SMOKE

DESCRIPTION

The MP-2B-OC Baffled OC Smoke Grenades rapidly delivers a cloud of OC "Pepper" irritant agent with a discharge time of approximately 25 seconds. The grenades construction is designed to greatly reduce fire risk with a baffled inner chamber. Our unique design blends the OC agent with the smoke outside the combustion chamber to avoid degrading the OC with heat.

OC smoke provides a good intermediate riot control response, with short term respiratory effect.
