MP-40BP-PCS - BARRICADE PENETRATOR (POWDER CS) - 40mm

DESCRIPTION

Our MP-40BP-PCS Barricade Penetrator Round is designed to be fired through windows or thin skinned doors and releases a cloud of CS irritant powder on impact. The projectile is fin stabilized to provide accuracy out to 45 meters. Upon impact with the window, the nose section of the projectile breaks away, allowing the projectile to release its irritant agent as it enters the room or vehicle. This round can be very effective in disabling subjects who have locked themselves in vehicles or barricaded themselves in rooms.
