MP-4L-OC - LONG RANGE SMOKE PROJECTILE (OC) - 37/38mm

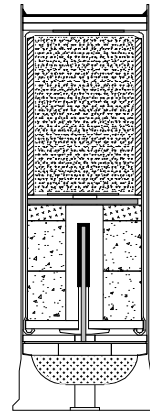

DESCRIPTION

The MP-4L-OC Long Range OC Smoke Projectile is designed to provide effective outdoor crowd dispersal while maintaining a safe stand-off distance of up to 140 meters. The projectile's construction is designed to reduce fire risk with a baffled inner chamber. Our unique design blends the OC agent with the smoke outside the combustion chamber to avoid degrading the OC with heat.

OC smoke provides a good intermediate riot control response, with short term respiratory effect.
