MP-FB-2 - "TWO FLASH/BANG" DISTRACTION GRENADE

DESCRIPTION

Our MP-FB-2 Flash Bang Distraction Grenade is designed to create a distraction/disorienting effect in civil unrest situations or during tactical entry. 2 seconds after being thrown, this grenade discharges an initial loud 170 dB "Bang" and flash of light, and approximately 2 second later discharges a second loud blast and flash. The emission area on the grenade top and bottom produces a balanced output to keep the grenade from becoming a projectile on discharge.
