## MP-FB-7/9 - "7/9 MULTI-FLASH/BANG" DISTRACTION GRENADE

### DESCRIPTION

Our MP-FB-7/9 Flash Bang Distraction Grenade is designed to create a distraction / disorienting effect in civil unrest situations or during tactical entry. It can also be used to simulate small arms fire during training. 2 seconds after being thrown, the grenade will begin discharging with loud "Bangs" and bright flashes of light. The 7 to 9 bangs on average are spread out over around 3 to 15 seconds. The emission area on the grenade top and bottom produces a balanced output to keep the grenade from moving on discharge.

### SPECIFICATIONS
